Not illustrated. 1901 Excerpt: .and others have calculated the size and shape of letters which can be read with greatest ease. Burnham3 summarizes the results of investigations upon this subject in an excellent way and his words may be quoted: 1Tfte Hue in Its Relation to Bealth. Op. lit. See, for Instance, Oppenheim, The Development of the Child, Chapter V; also Dewey, The Fetlschb of Primary Education, Forum, May, 1898. Indiana are said to have difficulty In accommodating their vision to print. 1. Size of the Letters. It is necessary that type be easily legible at a distance of twenty inches. For this it is necessary, according to Dr. Conn s estimate, /that the letters be 1.5 mm. high. Any type that is smaller than 1.5 mm. is injurious to the eyes. An angle of five minutes is sufficient for the recognition of a letter; hence, according to the estimate...
