Reviews

Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Augustine Pfannerstill)

Tor Books, 2001. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Set in a fascinating alternative world in which ghosts are real, the United States never came into existence, and Russia is still ruled by the Romanovs, this sequel to "Of Tangible Ghosts" and "The Ghost of the Revelator" continues the adventures of semi-retired spy Dr. Johan Eschbach. His lovely wife Llysette du Boise, a refugee from the burning remains of France and a world-famous vocalist, has been invited to provide a command performance for the Russian Imperial household. Johan accompanies her, allowing him to work on the oil concession in Russian Alaska that Columbia so desperately needs and do some spying on the side. Johan's espionage is carried out against the backdrop of the famous white nights of St. Petersburg, the nearly Arctic midsummer when the sun barely dips below the horizon and the sky seems to dissolve in ivory light. But even the oil shortage will fade to insignificance when Johan discovers what new weapons technology the Russians are developing, a threat even more fearsome than the atomic bombs of Austro-Hungary. Working in the tradition of Gordon R. Dickson and Poul Anderson for hard-edged adventure with sophisticated social and political dimensions, Modesitt provides a unique blend of speculation and intrigue that brings the trilogy to a rousing end.
