RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 110 pages. Original publisher: Washington, D. C. : U. S. Govt. Accountability Office, 2008 OCLC Number: (OCOlc)277143995 Subject: Genetically modified foods. Excerpt: . . . 1. The GE crop species is not listed in regulation as a noxious weed or considered by the Administrator of USDAs Animal and Plant Health Inspection Service to be a weed for the area of release. 2. The introduced genetic material is stably integrated in the crops genome. 3. The function of the introduced genetic material is known and does not result in plant disease. 4. The introduced genetic material does not cause the production of an infectious entity, produce a substance that is likely to be toxic to nontarget organisms, or produce a product intended for pharmaceutical or industrial use. 5. The introduced genetic sequences do not pose a significant risk of the creation of a new plant virus. 6. The crop has not been modified to contain certain genetic material from animal or human pathogens. USDA regulations also require that activities conducted under a notification meet certain performance standards. Namely, regulated GE crops must be handled in such a way that...
