Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from A Study of the Tumors of the Bladder: With Original Contributions and Drawings Four cases of tumor of the bladder have come under my observation within a few years. Two of these were followed to their fatal termination. Both were instances of primary cancer; in one case the tumor was an encephaloid, in the other it was a villous epithelioma. Autopsies were fortunately obtained in both cases, the specimens were preserved and carefully examined microscopically by Carl Heitzmann, M.D, to whom also I am indebted for the drawings which accompany the histories of the cases herein recorded. The other two cases, both male, were only temporarily under observation; in one, the diagnosis was clearly made by physical examination and then the patient disappeared; in the other, the tumor was not made out by the touch, but the frequent micturition, blood-tinged urine, extreme tenderness of a certain portion of the bladder to the contact of instruments, together with the occasional escape with the urine of flocculent fleshy particles, left little doubt as to the existence of a vesical growth. With this personal experience I began an inquiry as to the exact status of the literature upon tumors of the bladder. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
