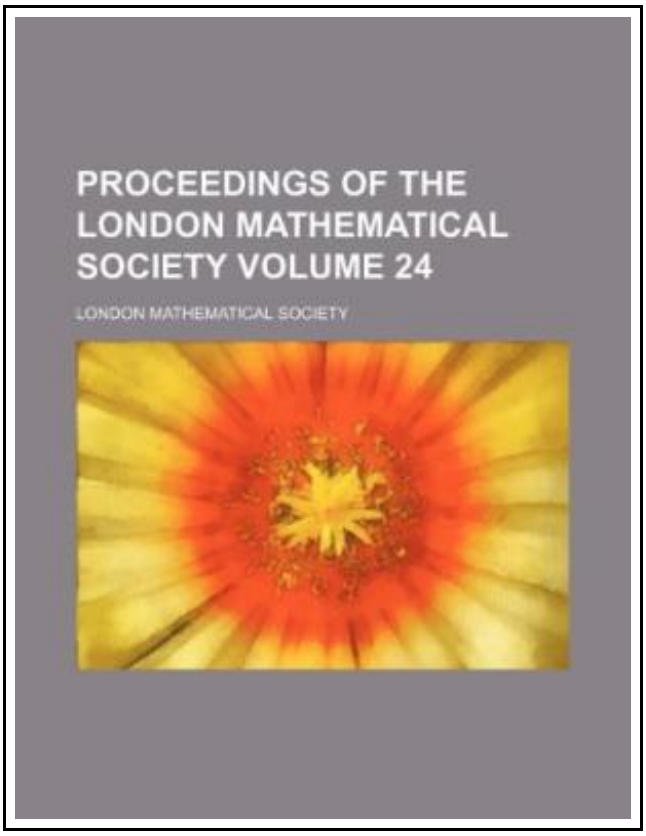
Proceedings of the London Mathematical Society Volume 24 (Paperback)



Filesize: 7.45 MB

Reviews

Completely among the finest book I have actually read through. It is probably the most remarkable book we have study. I discovered this book from my dad and i suggested this book to learn.
(Georgiana Pacocha)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1893 Excerpt: .the case of a simply-connected area, the nature of the three branch-points, so that the forms of / /2, /, will be given by /i (0 +/, (0 +/. (0 = (-A), where the indices m, n, p are determined by inspection, and where, of the constants a, 0, y, two, but not more, may be infinity, in which case the corresponding factors are replaced by unity. Assuming for simplicity that Z does not become infinite at any of the branch-points, it follows that Tit 2m, = Sw, = 2-, = N, i i i and S(-, so that Lastly, since the only irrationality that z contains is the square root of a qnartic function, the expression must have a square factor of degree N--2. This is equivalent to N--l equations of condition. Now, since the ratios only of, occur, the functions /i, /s, /5 contain N+2 arbitrary constants, and hence, when three of these (say the two points where becomes infinite and one of the points where it becomes zero) are assigned, the determination of the constants becomes definite. When the area to be represented is given, equation (i.) can therefore be obtained by algebraical processes, and, in the symmetrical half of the corresponding surface on which the area was-originally represented, will take every value once, and once only. Hence, when (i.) is combined with the equation between and pw, the resulting equation between C and pw represents the area conformally on an infinite...
