Brand New Book ***** Print on Demand *****.An excerpt from the Preface: . .practical value to foreign students has been embodied in the present collection, and for the rest, it can hardly be expected that every comparison drawn will meet with general approval. At the same time, it must be borne in mind that all the characters in any group are not necessarily to be compared one with another, though an element of sameness will be found always to pervade each group and frequently a whole series of such which have been placed intentionally in juxtaposition. Further, although this volume begins from the beginning and leaves the student on the threshold of written Chinese, yet a thorough analytical knowledge of all the characters here given will make future classification a comparatively easy matter-and the bitterness of Chinese is past. The advantages of an Index will, it is hoped, be too patent to need any comment, except perhaps that with its assistance a character may be found even if its sound is unknown, provided that some other character be familiar in the group to which it belongs.
