The WBSCM Program Office is scheduled to start user acceptance testing this month. The Public Health Information System ( PHIS ) is an integrated, comprehensive system of web-based applications that will provide near real-time collection, report-ing, and analysis of food safety data and inspection findings for FSIS. PHIS modern design will provide the agency the ability to adapt as requirements change and evolve. It will replace many of FSIS legacy systems and will capture data on the findings of FSIS inspection program personnel as they perform their daily tasks ( in-cluding import and export tasks ) and utilize the data to analyze trends, produce automated model predictions, and ensure the datas quality to be comprehensive, timely, and reliable for decision-making. In addition, PHIS will collect inspection findings, such as humane handling information, entered...
