

Joint Laser Interoperability: Tomorrow's Answer to Precision Engagement

By David M. Neuenschwander

Biblioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - Joint Vision 2020 directs a transformation of Department of Defense to meet US needs in the next century. One of the major goals of this transformation is a fully joint force capable of precision engagement. This monograph proposes a concept called Joint Laser Interoperability and discusses whether or not this concept provides some or all of Joint Vision 2020s precision engagement. The discussion begins with the current state of US laser systems and the present state of interoperability. This includes a brief discussion of how a laser works and what constitutes the basic parts of a laser system, laser range finders, laser designators, laser spot trackers, and laser guided weapons. The monograph also explains the difference between eye-safe and non eye-safe lasers. Once the monograph outlines current laser system capabilities it describes how current air, ground, and naval laser systems could be combined with new technology to create a joint force that is fully laser interoperable. The monograph also suggests changes in future organizations and equipment such as the US Army's Interim Brigade Combat Team (IBCT). These changes...
